Mr. Carlton Massey
County Executive
County of Fairfax
Commonwealth of Virginia
Fairfax, Virginia 22030

Dear Mr. Massey:

STAT In response to your 24 October 1967 letter to Mr. [redacted] I wish to advise that representatives of this Agency met on 11 December 1967 with representatives of the Virginia Department of Highways at their Fairfax office to discuss proposals for alleviating traffic congestions on Route 123 at the entrance to our property. It was their opinion, after careful study, that the possibility of an additional entrance to Agency facilities through the Bureau of Public Roads property (as suggested in your letter) would not appreciably resolve the traffic congestion.

As an alternative, the Virginia Department of Highways proposes to (a) widen the right turn lane and entrance road on the westbound portion of Virginia Route 123 at our entrance point, and (b) modify the traffic light controls to permit more rapid flow of traffic from the eastbound lane around the circle and into the entrance road. We have agreed, and are working closely with the Virginia Department of Highways in implementing this proposal.

We are also continuing to study your original suggestion and may be able to work out some arrangement with the Bureau of Public Roads which would be helpful.

We shall continue to keep you informed of our progress toward the successful resolution of this mutual problem.
